# REALTY BOARD REJECTS L. A. AD. PLAN

The matter of the various or ganizations of Glendale contribu ganizations of Glendale contributing to a page advertisement in a Los Angeles paper for a given number of weeks, was tabled by the Glendale Realty board at its meeting Wednesday noon. Chair man Horn of the publicity committee reported that he had seen the Kiwanis and Rotary clubs and also the Glendale Credit association, and none of these would have anything to do with the proposition. Several members of the board talked briefly on the subject.

Mr. Horn brought up the proposition of securing national advertising in either the Saturday Evening Post or the Literary Digest, and the board voted to authorize the committee to investigate this the committee to investigate this the summer menu for the little matter, as to price, arrangements, etc., and to report back to the the confines of the Glendale city

# SECURITY TRUST & SAVINGS BANK

Announces the organization by its stockholders of

HE new Company takes over all the business formerly conducted by the Bond Department of the Bank and begins operations today in the same quarters occupied by the Bond Department on the Mezzanine Floor of the Head Office at Fifth and Spring Streets.

Through this new Company the Security organization will be enabled to meet the increasing financial needs of Southern California and contiguous territory, and to render a broader and more comprehensive investment service to it clients. Security Company will underwrite bond issues originating in the West as well as participate in the underwritings in the Eastern financial centers. It will thus provide for distribution to the public locally of the highest grade bonds available, both in California and the Eastern markets.

Security Company investment service will include not only the advice of its experienced officers on matters of investment, but also the furnishing of statistical data, quotations, reports on investment issues, and general market

Bonds can be bought and sold by clients of the Bank at any of the Bank offices or branches as heretofore. The same conservative policy which has marked the Bond Department operations of the Bank will be followed by the new company.

The entire north half of the immense main floor of the beautiful Jensen building is occupied by the wonderful and varied stock of watches. clocks, silverware, cut glass, diamonds, pearls, rubies and many other precious stones.

The company prides litself on having secured a location in Glendale that surpasses in convenience of location and beauty of surroundings, all of the other settings it has in Southern California, which is eminently proper, as no other city in all this section has the promise of rapid growth and development that make Glendale "the fastest growing city of its class in America." enter into the construction of

"The Fastest Growing City In America"

Glendale stands at the gateway of the fertile and beautiful San Fernando Valley, surrounded by mountains of wondrous beauty, and only twenty miles from the cooling breezes of the mild Pacific, with its many pleasure resorts.

Glendale is a city of natural gardens and beautiful homes and has the widest and best paved thoroughfare in the country-Brand Boulevard-which traverses the whole city from north to south.

In at least two phases of community progress Glendale is unique. The reports of the U.S. census bureau established one of them. In percentage of increase of population Glendale leads America in cities of its class. As a home-growing community Glendale may challenge the world. In the decade ended with 1920 the United States gained only some 20 per cent in population; Los Angeles advanced nearly 100 per cent in the same period; but Glendale astonished the nation by showing an increase of almost 400 per cent.

Can anyone reading this list of figures wonder that Glendale in 1921 became the marvel of the country?

In eleven years the insignificant group of 2,746 congenial souls had doubled nearly ten times. Already early in 1922, the city directory establishes a population exceeding 32,000 and almost 5,000 more reside in the picturesque homesites bordering on the city limits and depending on the city for their com-

# Manufacturers Attracted Here

So impressed have leading manufacturers in the country been with the industrial advantages of location in Glendale that within the past two years more than fifty industries have opened plants in the city. Among this number are manufacturers of nationally known soft drinks, washing machine manufacturers, motion picture producers, potteries, hammered steel and sheet metal works, factories for building materials, planing mills, etc., etc. In admitting these industries the city government has been careful to safeguard the residential advantages of the city. Only those manufacturers whose products did not involve the use of foreign or negro labor have been granted entrance, and the industrial district has been limited to a section of the city which would not injure the residential development.

In its churches, schools and fraternities, as well as in its club and social life, Glendale is also richly endowed. There are fifteen religious bodies already having handsome houses of worship, and at least four of them have at the present time fresh building operations under way to cost approximately \$100,000 each.

The school enrollment of Glendale now reaches nearly five thousand and the pupils are housed in eleven modern and costly schools.

# Glendale's Growth Told In the Building Permits

Harold Turney Takes the Leading Part; Other Artists Delight, Also

The entertainment given in Central Christian church last evening, under the auspices of the music committee, the chairman of which is Mrs. Fred Pigg, and the choir, directed by Edgar Lloyd Smith, drew so large an attendance that the side galleries of the auditorium had to be opened. Every number was encored, and some of them more than once. Harold Turney, a student of California Christian college, was easily the star of the occasion, and his readings, all humorous except the closing one, were received with prolonged applause. He certainly is a genius in that line. A fellow student of the college, Miss Florence Peck, assisted Mr. Turney in the opening number and later gave a reading that was touchingly beautiful and which drew an enthusiastic en-

Honor Birthday of Mrs. Charles Marshall at Her Home

The Lotus group of the Alpha chapter of Glendale Delphians surprised its leader, Mrs. Charles Marshall, with a 1 o'clock luncheon at her home, 525 South Central avenue, on the occasion of her birthday, February 27. The ladies of the group brought with them a choice luncheon. The menu was as follows:

"A Musical Comedy in Three Acts—Eat, Drink and be Merry."

Act I "An Irish Folk Song."
"Roll on Sweet Chariot."
"Carry Me Back to Old Virginia." Specialty Song of the "Old Salts."

"Just a Bit of Sweet."
Act II "The Wearing of the Green."
"A Bunch of Sweet Peas."
"In a Pickle."

Act III
"From Greenland's Icy Moun-"Angel's Serenade."

Grand Finale.

"Drinking Song."

The guests were invited to order their luncheon from the menu which created much amusement, as

no one knew what food to expect except the maker of the dish.

The ladies brought a profusion of flowers to decorate the rooms. The table was handsomely decorated with pink sweet peas. The color scheme was pink. After luncheon Mrs. Mason gave the following

#### A HOME FOR PARTICULAR PEOPLE

This is a beautiful place which has never been of-fered before. Seven rooms are just the right number and it is in the most exclu sive part of the city, on a corner lot. Three of the rooms are the lightest, airest bedrooms you ever saw—one has 11 windows —and each one is so large you don't have to be particular where you put this or that—and best of all, there is a fine closet for each. The kitchen is just as light and convenient as the bedrooms are large, The magnificent view of the mountains distract one's attention enough from the drudgery of housework to make it almost a pleasure. And when the work is done what could be nicer than to sit in the sun-room, overlooking a spacious lawn and beautiful flowers? The restful decorations of a large living room make this a place that anyone can be proud to call home The price is \$8500, and it can be bought with a reasonable down payment.

#### REASONABLY PRICED

This must be seen to be appreciated. One of the homiest little houses, well located, that there is in Glendale. Hardwood floors throughout, tile bath, and on a large lot. This place is nearly new, has beautiful surroundings. The owner has given it the very best of care, but must sell, that's the reason we can offer it at \$3750, with only \$800 down.

#### IT IS WORTH THE MONEY

A fine, 4-room house, in the N. W. part of Glendale, on a lot 50x135; has two ets and linen closet. It has screen porch, breakfast nook, complete built-in fea-tures, finished in white enamel and papered. It is the best buy in the city at \$4800. The owner has left town, and it can be bought on a down payment of \$1500.

#### ALMOST A GIFT GRAB IT

We can sell two 4-room houses and double garage on one lot, for a down pay-ment of \$2800. The income on one house more than pays the carrying charges. Rose garden, fruit trees, lawn, and fine view. Price \$7000. Present income is \$1200. Figure it up; then come and see it.

#### SOMETHING NEW

We are now prepared to show you a 6-room bunga-low, that is in the course of construction. The plan of this bungalow is entirely new and is made to fit the needs of the particular housewife. Ample and storage rooms for everything, fireplace and large chimney. The con-struction is thoroughly nodern and up to date, and rather than go into an elaborate description we will state, that if you will call at our office we will be glad to give you full particulars, and take you out to see what is being done. It is located in the N. W. section of the city on a good street, and the price is \$6000, with \$2500 down; balance easy.

#### INDUSTRIAL AND MANUFACTURING SITE

instell need of

the finest industrial busi-ness, or manufacturing corners on the San Fernando road. This lot is located in the very center of rapid development, and is offer-ed at a price considerably lower than surrounding values. We also have several inside lots in the immediate vicinity of this lot, which enables us to deliver a manufacturing site suitable for a business of any size.

FOR SALE MEN'S.U. S. ARMY MUNSON-LAST SHOES AT \$2.95

Sizes 51/2 to 12.

Never again will you be able to buy these shoes at such a low price. We were lucky in finding a manufacturer, who was over-stocked with them, and needed ready cash, so we bought them at almost one-half of the regular price. This shoes is made over the U.S. Army Munson-last, with extra heavy stitching; special grained chrome brown leather used thruout. An ideal shoe for workmen, farmers, icemen, postmen, carpen-ters and motormen, who are obliged to be on their feet all day.

Send correct size. Pay postman \$2.95 on delivery, or send us a money order.

If you are not satisfied with these shoes after you examine them, we will promptly refund

# ACTIVITIES OF THE CITY COUNCIL TOLD BRIEFLY

# MEETING BY MEETING NOTES OF ITS SERVICES TO GLENDALE; ITS SUCCESSES AND FAILURES

To give the record of a year of activity of the Glendale city council would require many, many pages of the Glen- ard steet immediately adjoining the dale Daily Press. Neither is it possible to tell the how and city's property on the north, the why of the actions of the first council Glendale ever had. It is only possible to tell briefly, in chronological form, the things the council did, to refresh the memory of the citizens of Glendale and point a date.

This record, brief and inadequate as it is, follows,

from March 1, 1922, up to recent events, and relates only to things accomplished or efforts terminated:

City Makes Effort to Put Over Competition to the Pacific Electric

During the year of 1922 Glendale made a strenuous effort to secure a permit to run a municipal bu line into Los Angeles. This effort was brought about by an increase in rates over the Pacific Electric railway between Glendale and Los Angeles.

When the rates of the Pacific Electric were increased there was a cry from every section of the city. About this time C. D. Gulick was appointed traffic manager for Glendale and it was put up to him to engineer the running of the bus line

into the sister city.

The first attempt to secure this bus line permit was made on first trade exposition was effected Thursday, March 2. At that time members of the city council, repmerce and C. D. Gulick appeared before the board of public utilities in Los Angeles in an effort to se cure a permit to run over the streets of that city.

The bus line briefs were served on the Pacific Electric company by Mr. Gulick on March 27, these calling for an answer within five days the Glendale bus line brief was presented by that company several days later, the most important point of which was that the company expects to construct a tunnel to cost \$1,850,000 which will shorten the running time between Los. Angeles and Glendale at least 10

One of the most vital factors in the development of Glendale is the growth of its city schools, which goes hand in hand with its increase in population and is therefore School, the graduates numbering ordination of Education in Glendale phenomenal. Phenomenal things are usually paid for, and so one of the big problems of the municipality is how to keep pace with its schools. It is now proposed to provide \$500,000 for relief and growth.

Their financing is naturally assumed to be a stupen-dous task, entailing great burdens upon the taxpayer, Richardson D. White presented the until the figures are studied and it is seen that more school children and more citizens mean

"What about next year, if the proposed bond issue of \$500,000 is voted?" some one will be sure to ask. The answer is that the payment which would have to be met next year would represent \$13,000 of principal and \$25,000 of interest, or a total of \$38,000. The present next year would represent \$13,000 of principal and \$25,000 of interest, or a total of \$38,000. The present assessed valuation of the Glendale city school district is, according to the deputy county auditor, \$21, 910,780. Based on this valuation, the \$23,000 mentioned with a school of the deputy county auditor, \$21, 910,780. Based on this valuation, and clerical departments and strong and school of the sch 910,780. Based on this valuation, the \$38,000 mentioned would mean the \$38,000 mentioned would mean approximately 17 cents per \$100 of valuation. Actually it will be about valuation. Actually it will be about 5 cents less because Glendale will during the coming year be credited with the taxes from territory in the northwest having a present valuation of \$679.835, which has been wrongly credited to Burbank heretofore; also, the big building program in homes that is going forward will make new taxable property to assist in carrying the burden. The opening of the Community Savings and Commercial bank of Glendale, was an important factor in the development of the southern section of Glendale, marking, as it did, the sound and permanent growth of this part of the city. The formal opening of the new bank, which is located at 1726 South San Fernando road in the Orff building, took place on Saturday. November 18, 1922, when hundreds of residents and friends called to inspect the new quarters and extend best wishes for success.

The officers and directors of the Community Savings and Commercial bank include: W. W. Lee, president; John Logan, vice-president; John Logan, vice-president; H. J. Wellman, cashier; directors, Daniel Campbell, chairman; Max Bayha, George Bentley, George V. Black, Robert L. Eaton, George B. Karr, W. C. B. Richardson, and Arthur Campbell.

George V. Black, Robert L. Eaton, George B. Karr, W. C. B. Richardson and Arthur Campbell.

Over \$20,000 were deposited on the opening day and the deposits up to February 27, 1923, amounted to \$141,000, according to a report which was made at a meeting of the stockholders and board of directors on February 27.

# Glendale's Record of Growth

LTHOUGH Glendale is situated in the great metro-A politan district extending from the mountains to the sea, every part of which has experienced an unusual development during recent years, the record of progress of our city should be looked upon as truly remark-

The annual increase in Glendale's population in the past twelve years has been greater than the total population of the city in 1910. It is conservatively placed at 32,000 now.

Building permits in 1920 stood at a substantial figure—yet they have more than doubled in two years, totaling \$6,305,000 in 1922.

Bank deposits, another accepted measure of progress in any community, have also shown substantial gains. We are particularly gratified with the splendid increase in deposits of this bank since its merger with the Security Bank of Los Angeles in August, 1922. Deposits of the Glendale Branch are now more than \$2,500,000, a twenty per cent increase in the six months since our merger.

The handsome Class A, six-story office and bank building planned for the future home of the Glendale Branch at Broadway and Brand Boulevard, is the best evidence of the confidence of the Security Bank in the permanence of Glendale's development and in its future growth.

We appreciate the splendid patronage accorded this bank by the people of Glendale, and give assurance of continued support to legitimate local enterprises that make for progress and prosperity in the community.

We congratulate the Glendale Daily Press and the people of Glendale upon the bringing of the Associated Press service to this community.

# LESS THAN A YEAR IN ORGANIZATION, IT HAS-ALREADY DEMONSTRATED

In less than a year since the Community Service idea reached Glendale there has been a permanent organization formed, with V. M. Hollister as president. During this time there have been organized branches in social and physical recreation, dramatics and music. The first big program put on by Glendale Community Service was the Community Christmas. One of the aims of the local organization is to make Glendale a "city of neighbors," as well as a "city of homes."

Opening of 1923 Brings Glory to Glendale That Places Analysis of Sales Shows the City Permanently in the Sun of Publicity and Achievement

For the fifth time Glendale captured a prize at the Pasadena Tournament when it was staged January 1, This time it was a beuatiful peacock enrty, designed by L. W. Chobe of this city, who has been the creator of all the previous prizes. The lovely floral bird was driven by a little boy, Randolph H. Bancroft. On a rosecovered pedestal sat the silver cups which had been awarded other Glendale entries. Glendalians Are Buyin Suburb Section

connection with Flintridge, considered by many to be the choicest residence suburb in the Glendale region, has been evident to those who are in closest touch with the situation. Residents of Glendale are discovering that Flintridge is really a suburb of Glendale, and in increasing numbers are purchasing homesites in this exclusive section.

The above fact was brought out after an analysis of the sales made during the past week, when the greatest proportion of them was und to have been made to Glendale residents. This is an especially significant fact, since those who bought are not newcomers, but are people familith with Southern California and its many delightful settings for real homes.

Members of the Sanitary Deveiopment League from more than forty cities in Southern · California plans for extending the campaign \$250,000 in cost.

One of the chief advantages to the purchaser of a building site in Flintridge lies in the fact that passed the preliminary The utilities for modern has comfortable living, as well as the facilities for many so-called luxuries of life, were installed long ago, and the community has a welldefined and established character One of the most notable develop-ments at Flintridge this season has been the erection of a large num ber of attractive, but inexpensive, cottages and bungalows. The publation to health and the upbuilding lic is learning to its surprise that a magnificent environment does not necessarily mean extravagant costs, and many homeseekers are finding that they can buy and build in Flintridge at the same prices and terms that are available to them in many less attractive communities

Members of the league have just received the newly adopted em-blem which is to identify them as For several years it has been the unique practise of the Flint-ridge tract owners to build and belonging to the organization. The same emblem will be used in all advertising, on letter-heads and is to be displayed in windows. It is a guarantee of skilled workmanship and an assurance that the public will get the best in plumbing materials by patronizing those enrolled in the league.

For several months this ganization. system was the subject of discussion among board members. Some were favorable to it; some opposed. It was finally given a trial, but for some particular reason it did not work out entirely satisfactory as first introduced. Many feel, however, that this was not the fault of the system, but of those who applied it. Instances are given by those favoring this system of where it is working with entire success, according to their . was decided to ask the city council

At that time it in Glendale. was decided to permit three types of listings-namely, the multiple it was announced that the memberlisting, the individual exclusive list- ship of the board was growing with listing, the individual exclusive listing and the memorandum or general listing—all listings, however, to be signed by the party owning the property. This arrangements seemed to suit the majority of the board and since that time it has remained in force.

The original rapidity and that everything "looked rosy."

At a meeting held August 4, 1922, the board voted to endorse the three bond issues that were before the voters of the city. These included \$25,000 for the construction of the original rapidity and that everything "looked rosy."

The original multiple listing system was adopted by the board at a meeting held in the Glendale chamber of commerce on October 24, 1922. At this meeting the vote was 26 to 4 in favor of the system's adoption. On December 1 this system was put into effect, and by December 9 it was reported that 550 000 in multiple listings had

this system was put into effect, and by December 9 it was reported that \$500,000 in multiple listings had been secured.

This system was first presented to the board at a meeting held March 1, 1922, by Glenn D. Williman, secretary of the state real estate association. estate association

A number of movements which tate dealers of the city, regardless tate dealers of the city, regardless of Glendale were backed during the year by the Glendale Realty board. One of these was the purchase of the sanitarium site for civic center purposes, which the board endorsed on February 2, 1923. The board felt that the city should avail itself of this opportunity to purchase this, one of the last big close-in pieces of property, while it was still available.

On September 7, the board aligned itself with the drive that was being made for the electrification of the Union Pacific's line on Glendale avenue. This line, the club telt, was essential for the welfare of Glendale and for this reason it voted to support it to the limit.

At the September 7 meeting it

At this session E. P. Hayward, were elected to positions on the governing board of the organizagoverning board of the organiza-tion. The hold-over members of this board are R. D. King, J. A. Endicott, A. M. Yale, C. B. Guthrie, C. D. Thom and Arthur Campbell.

An appraisal committee, upon which the federal government as well as local property owners can call for advice and upon which the realty men of the city may call when a fair valuation of a piece of property is desired, was authorized by the Glendale Realty board on December 11. W. A. Horn, chairman of the committee, was empowered to appoint the remaining members of that body.

At this meeting the board voted to donate \$25 toward the Glendale float-in the Pasadena rose tournament, and also to hold a school for well as local property owners can

ment, and also to hold a school for two weeks for the study of the multiple listing system.

It was at the meeting held Jan-uary 11, that the board went on record as favoring an amendment to the constitution of the United States that would tax all securities that are at this time untaxed.

The placing of the California Real Estate association in any way under the control of the corporations of the state was bitterly op-posed by the Glendale Realty board at its meeting on January 18, 1923. This came as the result of the sug-gestion that the state organization take money from the corporations

in return for memberships.

At this meeting the board also went on record as being opposed to the new state highway commission deviating from the \$40,000,000 highway improvement plan that had been supported by the people of the state at an election several vears ago

Many other things were done by the Glendale Realty board during the year which closes today, March 1, 1923. The foregoing will show,

May 10, to investigate the possibilities of the city of Glendale securing the present high school buildings and grounds, after the school has moved to its new site, for a city hall and civic center.

The local team in the Central league was defeated by South Pasa-dena but holds second place. Its next competitor will be Monrovia High and if it wins it will rank as champion of the league. Betty Hig-gins and Charles Worley will rep-resent the affirmative, Fred Peck and Paul Cuningham the negative. Excellent work has been done by the music and dramatic departments. June 8 and 9, Booth Tarkington's sparkling comedy, "Clarence" was given with great success under the coaching of Miss Mona Gardiner, head of the department. November 22, 1922, a good one-act play was presented by the department under Acting Coach Harold Brewster, the parts being taken by Ed Stockbridge, Kathleen Woods. Mildred Thompson Allen Polleck Mildred Thompson, Allen Pollock and Lura Baldwin. Both music and drama departments gave a good ac count of themselves in the variety show given the middle of Decem-ber, 1922, which included "On Trial,".a clever original satire, written by William Justema and played by himself and Allen Pollock Students of the dramatic depart ment were represented in the one-act comedies, "Boosting Bridget" and "The Pot Boiler," all of which were coached by the acting head of the department, Harold Brewster. An elaborate musical extravaganza "Black and White Minstrels," "Black and White Minstrels," directed by Mrs. Florence Parker was the closing number. were other minstrel skits, jazz numbers in solo and orchestra, violin and saxophone solos, songs and dances, in short, a variety.

Written by W. Spencer Huffman

YOU KNOW ME—and yet, I am strange to you! I take my cue from Beauty and and adorn her with raiment that vies with the radiance of the Sun. But, Beauty, alas, is vacillating and when she changes, I create a new Beauty in her place and change my own form to please my new love!

In changing moods I traverse the world.

I, ever the egotist, visit all nations and all peoples. The Rich, I amuse—the Poor, I stir with ambition! To the Awkward I lend grace—to the Comely I lend attractiveness—to the Ordinary I lend distinctiveness—and, the Beautiful I glorify!

Popularity is my reward for the favors I bestow. The Mighty and the Weak—the Righteous and the Sinful—the Rich and the Poor—the Learned and the Ignorant—yes, even Royalty—all bow at my throne and proclaim me Regal—Queen of Queens!

A true artist, I soar among the clouds of glory as the world pauses and gasps in applause, startled at some new creation of mine!

None, not even I, knows the Beauty I next shall serve—nor the guise I next shall take. In my complex life I know not whether I guide or am guided! But, what matters it? For, I am Queen—I AM STYLE!

# Truths in Epigram

If there is one virtue that should be cultivated more than another by him who would succeed in life, it is punctuality.-Freeman Hunt.

#### GALLIVAN'S FOOLISH FIGURES

Representative Gallivan of Massachusetts is not good advocate for the anti-prchibitionists. His ambition to advance the cause of the wets is handicapped by the foolishness of his methods. When he utters what he conceives to be an argument he is merely being silly. Still his efforts cannot be said to be wasted. It is certain that they help the drys.

Recently Gallivan asserted that to enforce prohibi-

tion would cost \$620,756,596,000,000 in the next twenty-five years "if the cost continues to increase at the present rate;" That, he declares, is "more money than the world ever has known." Very impressive indeed. Talking in trillions is bound to be impressive, whether it means anything or not. He might have added a few more ciphers and been dealing in quadrillions or quintillions, whereas the opposition, made a profound sensation in the thoughtful world. awed and crushed would have been totally and finally

If the late war had kept up for twenty-five years, the cost increasing all the time, the aggregate expenditure, theoretically, would have been difficult to set down on paper. It did not continue. The war on whisky will not continue in growing volume for twenty-five years. If respectable citizenship would do its part in upholding the constitution, doubtless the war would have passed the peak of activity by now. The enemy would have been reduced to straggling guerrilla bands, to be dealt with by ordinary police authority.

Despite the Gallivans of congress and the constituents whose opinion they stand for, prohibition is winning. Even the iniquity of the bootle ger has been instrumental in producing this effect. Men who are opposed to sumptuary legislation, are even Lore acutely opposed to being poisoned by thieving and murderous purveyors of deadly beverages. They find that more and more, if they deal with peddless of the that more and more, if they deal with peddless of the rusted.

figures.

#### DISORDERS IN PETROGRAD

Advocates of bolshevism will be pained to know that in Petrograd, one of the model soviet cities. there are serious disorders. These are due to the conduct of the unemployed. Red troops have been trying to subdue the outbreak, but not with complete success. The malcontents assert that they would prefer Leing shot, to the slewer death by starvation that is the only alternate prost of they discern.

Russia is able to maintain an army because the soldiers are creatures of prey. So long as there remains any of the visible results of prosperity, tangible property accumulated during a former era of industry, the soldiers steal it. Thus they are enabled to live without work, and with the full sanction of the sent to the front in the early days of the world war, but of a younger generation. They never have seen service more strenuous than foraging. It is not certain that they would, under test, be good soldiers at all. They are not inspired by patriotism. Their ambition is get food without earning it.

Trotzky is credited with having said recently that the whole energy of Russia should be turned to the production of war material so that an army might be sent into Europe. The thought comes to other minds, that it would be better for Russia to pay some attention to the arts of peace, particularly to such of these as might keep starvation away. Despite the implied threat of Trotzky, it is doubtful that the self-centered zealot is trying to do anything but bluff.

#### HONOR IN SMALL THINGS

The honor system has been tried with prisoners, and with considerable success. This success has not extended so as to include in gratifying measure the ones released on parole. As to those who still are prisoners, but are trusted to obey the rules the system works well. Sometimes groups of them are permitted outside the walls unguarded. If individuals in such groups take advantage of the chance to escape, they have as much to fear from their comrades as from the authorities. In view of these facts it is strange that the rule of honor should not always work perfectly among students.

In the Chicago university the honor system has been pronounced a failure. Probably this verdict is too severe. It seems that fruit and candy stands had been established for the benefit of students. Each was supposed to take the desired quantity, and leave the price in a stipulated place, as there were no attendants. Soon a series of thefts began, and watchers caught six students, one of them a girl, in acts of fering. Some of these took what they wanted and left no pay. Others, through pretense of payment, managed to short-change the money box. The six are to be arraigned before the student body. Of course they will be dealt with in drastic fashion.

Honor in little things is just as important as honor in great, for it is equally the expression of character. The small rascal remains so only because of lack of

"The German mind, at least as it has been re vealed to me, does not really comprehend that France is in the Ruhr to win; that she will never get out until she has won; that she will take the bruisings. the beatings, the wounds necessary; that France has the wit to understand the situation; that victory belongs to the one who holds on to the last quarter of an hour, and that even as at Verdun, she will

The people of the world see France trying to col-lect a debt from a debtor who not only professes to be unable to pay, but manifestly has no desire to pay. The general belief is that concessions would have been made by the creditor had it not been met at every turn by a truculent and offensive spirit. In very self-respect it had to assert itself. For this it is being condemned by the very persons in the United States and elsewhere who during the war were openly

On a Florida links somewhere in the neighborhood of the fountain which Ponce de Leon sought in vain Mrs. Caleb F. Fox has defeated the Ruhr. Miss Glenna Collett, national champion of women golfers. Miss Collett's victory last all was thought to emphasize the ascendancy of youth in golf, the veterans having fallen right and left in 1922. Mrs. Fox has had something to say about that. She proudly confesses to more than three score years and to ten grand-

children.
She is a shining example for M. Coue. Her round with Miss Collett was her best. She played the eighteen holes in seventy-nine strokes. She is looking forward, no doubt, to a record of seventy for her seventieth year.

Time, Bernard Darwin has remarked, is dormy on all of us, but Mrs. Fox's buoyant disregard of years is witness that golfers, at least, can keep many holes up on the old fellow. # COMMENT ON DAY'S NEWS By HENRY JAMES

Time does not keep its secrets very wall. The veil of centuries is being torn away. Even the desert, the place of desolation, has beneath its surface, the evidence that at one time in the remote past, it

was luxuriant with vegetation. Through its jungles roared fiercer denizens than now exist.

All life was swept from that area. For centuries the sands blew across the place where had been life and activity that vanished and left no sign. The

forests that had been, were buried. Among them were the bones of the creatures that had prowled in their shadows. What swept them away none may say, but the fossil remains have been found. Part of the story, at least, is known; the story of life that flourished for a span, and was no more. When Tutankhamen was laid in his sepulchure,

there was no thought that thousands of years later his royal splendor would be disturbed and the manner of his life and death become a tale that is told.

himself, and over its door carved the legend: "Sealed to all eternity." When his body was laid there, the door was made fast. With the full skill of the artisan, the strength of cement, the sealing was perfected. To all eternity? Not that. A few seasons, and a tiny seed had found lodgment in a crevice. It sprouted, it grew. A plant thrust its roots down towards the soil. The crack widened. At last the tomb had to be rebuilt

Planning for the future may be the part of wisdom, but the judgment is misled when it believes that future ages will be unaware. Even nature is incapable of hiding the truth forever.

It is probable that the President's desire to have the United States join the permanent international court of justice will be defeated in the senate. That body has shown itself quite capable of opposing whatever might tend to world peace and amity.

Aside from the equation of partisan meanness, which has to be considered, it may be that the senate is guided by its dread of "entangling alliances." In support of such fear it quotes Washington ashaving said that which he never did say. It also takes the view that the United States still has to consider itself as though a feeble republic just emerged from the colonial shell.

There are many alliances with foreign countries now. Nobody feels that there is a dangerous entanglement. The mental attitude of the senate, to remain consistent, would have to condemn even the universal

The sheriff of Los Angeles county has issued a warning to tourists, beginning with the advice not to go into financial transactions with strangers. He tells them of the presence of swindlers. Doubtless this is well meant, but it is not likely to do any good. Most of the schemes that are worked are so brazen that anybody with just average common sense would reject them instantly. It therefore is improbable that the victims come from a class accustomed

to reading the papers.

The way to settle the swindlers is to take them by the scruft of their necks and throw them into jail.

Further along, in the various booths motion picture stars gown-ed in silks of Arabian, Chinese, Egyptian and Navajo designs appear in fashion pageants.

One imagines that the whole tashion world has gone print mad for there is scarcely a material which is not covered with herogryphics or figures. Some of the designs are so intricate that one might feel better about wearing them, if one could first get hold of some Egyptian who could discipher the ancient printed codes to ascertain whether they are perfectly tain whether they are perfectly nice in their meaning. Indeed, some of them are quite shocking affairs. One can't imagine one's mother going about in one of those "Egyptian taking a bath" frocks, even though they are printed in perfectly respectable old lady col-

This offer was accepted by the credit men, who immediately began to make preparations for the picnic, which proved to be the biggest thing of its kind ever held in

Glendale.

At that bicnic there was everything imaginable, from the toy balloon man to the baseball game. Booths were maintained by the merchants, Tuesday Afternoon Club and other organizations, the Glendale Daily Press maintaining a tent close to the entrance of the grounds.

There was dancing both afternoon and evening, and during the evening a band concert was given by the Elks Band. The day was fittingly closed by a beautiful display of fireworks.

Stand Against Annexation

The credit men met weekly during the entire year and much business was transacted during the twelve months. On December 24, 1922, this organization went unanimously on record as opposing annexation to Los Angeles, declaring that such a move would be detrimental to the growth of the city and the properity of the community. The stand taken by the organization in this mafter carried considerable weight against d

work his division is doing.

Dr. Gries stated that the large amount is lost in the form of scrapped buildings and depreciated real estate values, resulting from the intrusion of undesirable commerce into residential districts. The present situation in many cities Dr. Gries compared to a house in which the bookcase is in the bathroom and the kitchen stove in the parlor. He explained that in some of the better residential districts the value of each house may be reduced a thousand dollars or more through the construction in that district of a factory or other structure not properly belonging there. During the year the baseball team representing the Glendale merchants was organized. This organization, for a while, met with remarkable success, but internal strife developed, and the team gradually defeated itself. longing there.

Dr. Gries recommended adequate zoning laws as a preventive, and explained how the Division is cooperating with communities all over the country that are preparing zoning regulations. A zoning primer and a "standard state zoning enabling act" authorizing cities to zone have been widely distributed. It was pointed out that the Building Code committee of the Department of Commerce, appointed by Secretary Hoover, has recently published a report entitled," Recommended minimum requirements for small dwelling construction." for small dwelling construction. It covers one and two-family dwellings, with an extensive discussion of the reason for the requirements, and the best types of construction and the best types of construction for various purposes. OLD RAILROAD TIES In order to make it easier for the public to obtain old cross-ties from the railroad, the Southern Pacif company has made provisions for

the sale of ties directly by section foremen or station agents, according to J. H. Dyer, general manager. It has been the practice of the company to sell the ties at a small

price covering cost of handling but uncertainty on the part of would-be purchasers as to the means of ob-taining the ties has caused the

company to simplify the selling procedure, not wishing to burn ties if they will benefit anyone. In the efficient maintenance of its roadbed, the Southern Pacific places approximately 2,500,000 new cross-ties in its track each year. A large portion of the old ties re-leased from the tracks are used in the maintenance of fences ald the right of way. More than 10,000

# EAST DISCUSSED BY BABSON

NEW YORK CITY, Mar. 1., 1923. annual trip of inspection. With some 10,000 miles of traveling he will study conditions in 26 leading centers of the United States. His report divided into eight sections presents an unusually valuable picture of current business conditions. Section two, which is issued today, treats of New York, Pennsylvania, Maryland, and Ohio.

"As New England was the first section to be hit by the depression and the first to recover," says Mr. Babson, "so New York, Pennsylvania and Ohio being the seconc section to be hit, naturally is the second section to recover. In 1920 the center of the depression was at Bridgeport, Connecticut; but by 1921 the center of depression had moved to Akron Ohio From Con necticut to Ohio-however-business is today in fair shape. The steel industry is back to 85 per cent steel industry is back to as per con-of its capacity; coal mining is very active; the carpet factories and textile mills are exceedingly properous; the agricultural sections and the numerous small factories of these states are getting on much better. New York City is feeling fairly optimistic. The hotels are full and the retail stores are doing a good business. There, nowever, is no such riotous spending of money in the restaurants and the atres as during boom times. The

principal industry of New York City is banking and jobbing. The bankers are not especially optimistic over the prospect of lower money rates for 1923, excepting those who sell bonds. Of course, as money rates decline the demand for bonds increases and bond prices strengthen. Certain banks have already been obliged to reduce their dividends and more reductions may

be expected by other institutions. "The jobbers of New York City work is very largely importing and exporting. The tariff has handicapped them considerably, notwith-standing the optimistic figures on foreign trade which the Depart-ment of Commerce is issuing, Whatever the figures may show, these exporters and importers find it much more difficult to do bussmaller margin of profit for all concerned. However, there has been a distinct feeling for the betthe east since President Harding's message on the British Debt l'ayment plan. In the midst of all of this talk about the cancellation of debts, repudiation of contracts, accompanied by a general depreciation of foreign a general depreciation of foreigh-bonds, it surely was stimulating to have the British come forward and flatly state that they are deter-mined to pay us principal and in-terest in full. Considering that of the \$10,000,000,000 owed to the United States over one-half of it was by England, this is a tremendous step toward the restoration of international confidence and commerce. The general impression in the East today is that in return we should now help England and give her all the credit we can to enable her to buy our farm pro-ducts. Now is our chance for us to demonstrate that it pays for a nation to meet her obligations and protect her creditors. In view of bankers of New York City look for a rather active stock market during the year 1923, believing that the market will swing both ways be-tween very broad limits, thus giving us both higher prices than we

"Every time that I visit the Mohawk Valley of New York State I am more impressed with its great activity and its potential resources. I should be surprised to see the country lying between Albany and Buffalo, traversel by the New York Central, the West Shore and the Eric Canal, become the greatest manufacturing center of the United States. Its climate is ideal; its labor conditions are good; it abounds in agricultural resources, thus assuring a reasonable cost of thus assuring a reasonable cost of living; the greatest bituminous coal mines of the country are located to the south and the greatest number of available water powers are located to the north. These conditions are certainly ideal for general manufacturing of all kinds. This valley is close not only to our great American cities, but it is well

great American cities, but it is well located for export trade.

"In case we ever establish reciprocity with Canada, this would still further help the states of New York, Ohio and Pennsylvania, Moreover, let me add that we do not appreciate our Canadian opportunities. Canada is a wonderful country and both Canada and the United States are making a great mistake in erecting tariff walls. The United States should freely purchase raw materials from Canada who should reciprocate by buying manifactured goods of us. The

# GLAD TIDINGS TO THOSE WHO SUFFER

Dr. Wyly, who is devoting his life to assist suffering humanity, has located and opened offices in Burbank and in two short months has built up a practice which consumes practically his entire time. He has only a very few open dates, and before the end of the present week these will all be filled.

FIRST: Dr. Wyly has dedicated his life to the services of sick and suffering humanity. He is absolutely honest and conscientious in his work. If he thinks your case has gone too far for him to reach it he will frankly tell you so.

SECOND: He has graduated (taking the full course) in one of the best Chiropractic, then later one of the best Electro-Thera-peutic, colleges in the world. Later he has taken a number of post graduate courses in both institutions.

THIRD: All the above with several years' heavy experience, has especially fitted and qualified him for his life work.

FOURTH: Dr. Wyly has not spared time nor money to supply himself with the newest, the best and the most up-to-date Electrical Equipment that money can buy, and the wonderful results he is getting fully justify their installation. The doctor feels and says that nothing is too good for his patients. His whole soul is filled with a burning desire to "get sick folks well," and he certainly is doing it.

# NEW TRACTS SWING ONTO THE MARKET WITH REGULARITY WHICH ABSORBS FLOATING

The growth of Glendale during the year ending March

The growth of Glendale during the year ending March 1, 1923, is evidenced by the large number of new tracts of real estate that have been placed on the market.

Few things show the growth of a community so accurately as do the opening of subdivisions. When a city becomes crowded and newcomers continue to pour in, that is attracting the attention of there is nothing to do but to expand. Expansion means the realty buyers and others in lost no time in making their reservations for one or more of the buyer. The opening of this section. That a large number of new tracts have been opened in Glen-operated by the Oakment Country dale during the past shows conclusively that this city has been clusively that this city has been sand dellars. "carrying on"-that she has been sand dollars.

Something has maintained for Glendale the title "the fastest growing city in America." That something is influx of tourists, which naturally results in the filling up of the many new tracts that have been opened here within the year.

Sparr Heights

Grand Gr

One of the largest tracts to be opened in Glendale during the past year is Sparr Heights, the wonderful piece of property consisting of 1500 acres lying in the upper end of Verdugo canyon. This tract, the first unit of which to be placed on the market contained several hundred acres, is owned by the Francis-Barnum-Walters company. The celebrated Verdugo road runs directly through this property as does the northern extension of the Glendale-Montrose Railway company.

It was reported at La Crescenta on May 29, that W. F. Sparr of the Sparr Fruit company had purchased 1500 acres adjoining his acreage on Verdugo road, just south of Montrose, from L. E. Mesnager and the Vickers estate. Mr. Sparr with the Sparr Fruit company own 150 acres adjoining Montrose, This, with the new land acquired, gave them all the acreage between Montrose and the Newport subdivision. It was a few months later that Senator Francis of Iowa acquired his interest in the property and the Francis Barnum-Walters operations began.

The sale and subdivision clothed wing Estate, located on Colorado street, in the eastern section of the santher reality transaction that was affurness that condenses the city. Ill., and A. G. Smith of 126 East Elk avenue, the price paid being \$100.

This tract was opened about two weeks ago and already thirty-one lots have been sold, which demonstrates the popularity of this piece of property. Marvin Smith, one of the prominent realitors of this city, is selling agent for this tract.

Glendale Crest marked an important step in the advancement of Glendale, for the subdividing of this property opened a bortion of the northeast part of the city that has, for some unknown reason, long been neglected. Roland Square

Within a week after Roland Square was put on by J. R. Gray, 124 North Brand, more than half of the 100 lots had been sold, and since that time they have been selling rapidly. This tract lies between Doran and Patterson and Kenilworth and Chester—one of the toficest locations for homebuilding purposes in Glendale.

The improvements are now about completed in this tract, these including street work, sidewalks, curbing, gas, water, electricity—everything that is needed for the up-to-date subdivision. Patterson is being paved through to San Fernando road with 5-inch macadam.

Golden Rule Heights

Nothing has ever done so much for the development of the south-eastern part of Glendale as has Glendale Heights. Several months ago, this property, which was formerly the Schoffeld ranch, was purchased by the Haddock-Nibley company. This is a company that really does things, and the minute it secured possession of this land it started to improve it.

Considerable activity was also experienced in the Verdugo Highlands tract, which was also placed on the market recently. This tract is located on Verdugo road, at a point close to where the Los Angeles-Eagle Rock car line connects with that thoroughfare.

The biggest feature about this tract is that it has a 5-cent carfare to Los Angeles, and is 20 minutes from First and Broadway. It is close to the proposed extension of the York boulevard into Glendale.

About \$500,000 is being spent by the present owners in beautifying the property. Many lots in this tract have already been sold.

The Sharpe Estate

Another sale of moment made during the past year is that of the Sharpe estate, which is located at Cypress and San Fernando. This piece consists of 3½ acres. This property was improved with an old two-story house. This fract has been practically sold out and serveral resales at a profit have been made.

That Glendale has begun to ex-pand during the past year even to the extreme northwest corner is Suburban Heights, a dream tract located in the wonderful north-western section, is one of the latest tracts to be announced. The opening notice of this tract was made Walnut Glen. B. Fletcher today. Of this, \$640,000 will be spent in the High Sierras and upon trans-Glendale, and about \$197,000 will be spent in the district itself. Of the company's total budget of \$26,000,000 for 1923, about \$16,000,000 will be spent in the mountains for new power development and for new power development and for ransmission lines to bring the power to points of use. A total of 125,000 new horsepower will be added to the system during the year and Glendale's portion of this amount, when connected up and made to do service for various purposes during the year, will be adequate to take care of 850 new houses some new factories and to houses, seven new factories and to provide for an increased popula-tion of 4,000, besides providing for more intensive cultivation of 5,000 acres of land that could be made more productive by electric irri-gation. I do not believe, however, that this new provision for power, large as it is, will be more than adequate to take care of Glendale's growth during the next two or three years. are estimated to call for extension of lines which will total up to \$50,-000, and the sum of \$62,700 will be spent for renewals."

Speaking of the company's general budget of \$26,000,000 for the year 1923, which has just been approved by the board of directors, District Manager Fletcher said. District Manager Fletcher said, "The appropriation for the year 1922 of \$22,500,000 was by far the largest that had ever been made up to that time by any western utility. The receipt of a large amount of cash from the city of Los Angeles in payment for the purchase of its Los Angeles distributing system, made possible a little speeding up of even this enormous program. Actual expenditures for new construction of 1922 were \$24,000,000, an average of \$2,000,000 for each month of the year. The present budget exceeds that colossal total by another \$2,000,-000. Of this sum, about \$12,000,000 will be spent in hydro-electric development in the mountains, about \$4,000,000 for transmission lines great deeds.

The Southern Pacific Railroad and the things it could, would or should do for Glendale, have been the subject of many conferences with its officials by members of civic committees and otherwise. To Their New and More Commodious Quarters at

# 109 North Maryland Street

This move was made necessary by the steady expansion of our business, which required larger quarters, betterment of facilities and the addition of new departments.

We are adding new Real Estate, Loan and Insurance departments which will be under the direct management and supervision of Mr. E. W. Kingsley, a well-known resident of Glendale, and experienced in the proper handling of Realty Sales and Exchanges, Loans, Investments, Insurance, etc.

The architectural branch of the business, which will be larger, more adequate and strictly up-to-date in equipment, will be under the able management of Mr. J. W. Morrison, a certified architect of ability and long experience in high-class construction of all classes.

In the addition of these departments, together with the betterment of our present facilities, we have endeavored to place ourselves in a position to give REAL SERVICE and meet every requirement, such as—the locating, purchase or leasing of properties; financing, designing and construction of business blocks, factories, warehouses or residence buildings, and the insuring, leasing or renting of same.

luminated.

There is hardly a nook or corner of the city where the street light system has not penetrated. Durnando Boulevard Improvement as uring the past year a great deal of sociation at its meeting, March 27. work was done by the public service department in the extension of he street lighting system of the city, especially into the northwest territory, which was annexed some time ago. The result is that that locality is now well 'illuminated. When that section annexed it was remised at text lights and the section annexed it was promised street lights—and it has them. Several miles of streets were illuminated during the year that closed March 1, 1923.

#### San Fernando Road Lights

During the past year a desire has rown in the breast of the boost-rs of some sections of the city or ornamental lights. The mem-pers of the San Fernando Boule pers of the San Fernando Boule-rard Improvement association have, for instance, been frantically de-manding that ornamental electo-iers be installed along their thor-ughfare. Those boosters believe a their section. They want the ights and are willing to pay for hem.

The three-light standard was first dvocated for San Fernando road t the meeting of the San Fernan o Boulevard Improvement associaon on March 2. At that meeting t was thought best to have a one ght feature. However, on a meeting held on April 24 it was finally ecided to adopt a two-light fea-

> Colorado Street Lights A petition bearing the signatures of 707 of the property owners on Los Feliz road between Glendale avenue and the Southern Pacific tracks, asking that ornamenta lights be installed along that thou oughfare, was presented to the Glendale city council on March 30, 1922. The people of this street were not to be outdone by those owning property on San Fernando road, in this respect. It was decided to incorporate the

lights in the general improvement of Los Feliz.

Colorado Street Electroliers
The people living along Colora do street have petitioned the coun-cil for ornamental electroliers. They realize the value a system of lights of this character will be to their property. The installation of these lights has been held up on account of the proposed widening of the street from Glendale avenue o the eastern limits of the city However, the obstacles are being cleared away one by one and Colorado will soon be a "white way."

One of the important financial transactions of the year occurred August 19. 1922, when the First National Bank and the First Savings Bank of Glendale completed a merger with the Security Trust & Savings Bank of Los Angeles of securing stands for concrete under the ornamental electroliers on the boulevard and in aiding of the Glendale Improvement association's bonus line. It closed the year by approving the movement to remove the service poles from San Fernando boulevard and to widen Franko road and to widen of the San Fernando road district the san Fernando Seriando boulevard and to widen Osborn Jr., assistant cashiers. # BEAUTIFUL LOTS COVERED WITH TREES-HIGHLY

The restrictions are \$3000 and \$3500; and no temporary homes are permitted. The location is ideal, being above Kenneth Road, below Tenth Street, which is a main paved boulevard between Glendale and Burbank. It is one of the best locations in the rapidly developing Northwest section, commanding an unsurpassed panoramic view of the whole valley. Water, gas and electricity paid.

NO TEMPORARY HOMES -All through the sale of our subdivision FAIRVIEW we have had hundreds of calls for lots with trees on them, and also for lots on which temporary homes were not permitted. At last we are able to supply this demand, and at prices so low that there will undoubtedly be, in a very short time, remarkable increases in values in SUNSET GROVE.

The terms, \$100 cash, and \$20 and \$25 per month, affords an opportunity to purchase a lot in a beautiful tract at the low opening prices, with a very small cash investment.

FOR INVESTORS

We estimate that there has been \$150,000 of increase in values in our FARVIEW subdivision over our opening prices, and we anticipate that the ratio of increase in SUNSET GROVE will be even more.

-It has been consistently our rule to offer lots at a low price with the idea that we desire our purchasers to make as much money as we do, and our experience in FAIRVIEW has fully justified this position.

A LOT AT OPENING PRICES -SUNSET GROVE will appeal to people who desire a more exclusive district, and to those who appreciate the great desirability of property in the beautiful Northwest section of Glendale, where development, improvements, increase of population are going ahead with tremendous strides.

-SUNSET GROVE lots are selling very fast. Over \$15,000 worth of property sold first three days of sale. Don't delay. Come and see this new subdivision. -Drive out Kenneth Road, Grandview Avenue and Tenth Street direct to Tract Office on South side of Tenth Street, beyond Linden Ave. Tract office open all day Sunday. On Saturday afternoon call at our office on Broadway.
